

Mittelerde Meeting 2019

13-14 June, BIOTEC, TU Dresden

The Mittelerde Meeting 2019 will be held at the Biotechnology Center TU Dresden (BIOTEC). The BIOTEC is part of the Center for Molecular and Cellular Bioengineering (CMCB) and develops innovative technologies driving the progress of modern life sciences. It is the perfect place to host and strengthen the computational biology community of central Germany.

- TOPICS**
- protein sequence & 3D structure
 - RNA sequence, secondary & 3D structure
 - protein-protein and protein-RNA interactions
 - genomics, NGS analyses & genetic variation
 - deep sequencing
 - computational chemistry
 - systems biology
 - image analysis
 - text mining & ontologies
 - related fields of bioinformatics

■ Submission deadline: **17 May, 2019**

■ Invited speakers:

- **Andreas Beyer**, Cologne
- **Yves Moreau**, Leuven
- **Peter R. Wills**, Auckland

■ Mittelerde speakers:

- **Andreas Dahl, Marc Thilo Figge, Michael Hiller, Florian Jug, Dirk Labudde, Yixin Zhang**

■ Extend your stay in Dresden for:

- **Dresden Long Night of Science & Bunte Republik Neustadt**

REGISTRATION & SUBMISSION

tiny.cc/me19

Submissions are abstracts that may be presented as poster or invited oral presentation at the conference. Participation is free of charge. Registration is open until **7 June 2019**.
