

Workshop

10-11 September 2019

Hinxton, Cambridge, UK
European Bioinformatics Institute

Finding Evidence in Research Publications

Overview

Automating literature review and text analysis can help extract valuable knowledge from millions of research publications.

In this workshop you will learn how to locate public data cited in research literature using free tools from Europe PMC.

We will cover the basics of programmatic analysis of scientific articles and principles of dictionary-based text-mining.

Application deadline:

Friday 23 August 2019

Participation:

First come, first served
