

The power of connected minds

IT technical consultant (R&D applications)

We are the world's leading chemical company because we offer intelligent solutions for our customers and for a sustainable future. We connect and develop people with diverse talents all over the world. For you, this means a variety of ways to advance. Not only your performance but also your personality matter to us, without regard to gender, age, origin, sexual orientation, disability or belief. At BASF, careers develop from opportunities.

BASF Plant Science develops innovative solutions to increase yield and quality of crop plants. CropDesign, the Belgian division of BASF Plant Science, focuses on crop plant improvements. The company applies genomics, informatics and robotics technologies within laboratories and an automated greenhouse complex.

What you can expect

As an integral member of various highly motivated and dynamic project teams in our global IT department you will work out computational solutions for research problems.

- o You will collaborate with scientists and IT experts to improve and maintain the global research informatics platforms of BASF.
- o Your responsibility will include requirements capturing, system conception and software implementation according to high quality standards.
- o Besides you will also scout novel third party IT solutions to integrate them into the BASF IT landscape.

What we expect

- o You have several years of experience in professional software development for scientific data analysis.
- o Your education in the areas of informatics, statistics or natural sciences provides a well-founded basis for understanding complex scientific problems.
- o You possess sound knowledge of IT concepts including relational databases, web applications, object oriented systems and service oriented architecture.
- o You have good knowledge and professional experience with programming languages (Java, R).
- o You have good analytical and communication skills, fluently speaking English (Dutch is a plus). Experience in interacting with scientists is of advantage.
- o You are a creative and motivated team player, open for changes and new challenges.
