

Upcoming seminars: October 2011

Monday October 3, 2011 11 am	Dr Arthur Korte Gregor Mendel Institute of Molecular Plant Biology Vienna, AUSTRIA <u>"Combining multiple traits for Genome-wide association mapping"</u> <i>Invited by Prof Dirk Inzé and Prof Marnik Vuylsteke</i>
Monday October 10, 2011 11 am	Prof Zhenbiao Yang Center for Plant Cell Biology, Department of Botany and Plant Sciences, University of California Riverside, USA <u>"Auxin regulates pattern formation in a self-organizing and hierarchical manner in the Arabidopsis leaf epidermis"</u> <i>Invited by Prof Dirk Inzé and Prof Jiri Friml</i>
Thursday October 20, 2011 11 am	Prof Alain Goossens VIB, Dept. of Plant Systems Biology, Ghent University Gent, BELGIUM <u>"Jasmonates : Gatekeepers of the plant's defense metabolite universe"</u> <i>Invited by Prof Dirk Inzé</i>
Tuesday October 25, 2011 11 am	Prof Susan R. Wessler Department of Botany and Plant Sciences, University of California Riverside, USA <u>"The success strategies of transposable elements that diversify genomes"</u> <i>Invited by Prof Dirk Inzé</i>

Location: Jozef Schell seminar room
